

At JAUSAS we have a team of experts on international tax regulations who advise companies and private individuals on tax issues related to any kind of operations and transactions. Our experienced specialists can effectively and professionally resolve even the most complex international tax issues.

Among the principal services offered by our specialists in this practice area are the following:

- Design of international corporate structures taking into account the tax aspects of the operations.
- Tax planning of investments to third countries through Spanish holding companies (ETVE).
- Tax planning of foreign investments coming into Spain, as well as tax planning for Spanish companies wishing to invest abroad.
- Tax planning regarding capital gains, dividends and interest.
- Advice on the tax issues related to international trade and transactions.
- Advice on international transference price policies.
- Tax planning regarding displacements of personnel.
- Taxation of non-residents in Spain and of Spanish residents abroad.
- Drafting and filing tax returns.
- Resolution of conflicts related to double taxation.
- Advice in the area of VAT and other indirect taxes in international operations.
- Filing appeals to the competent national tax authorities and tribunals.
- Tax advice regarding joint ventures.
