

J AUSAS is one of the leading law firms offering legal advice on matters related to pharmaceutical products and medical equipment.

The special features of the health legislation, and the pharmaceutical sector in general, require from the professionals a high grade of specialization and specific knowledge. Our group of lawyers in the practice area of the Health and Pharmaceutical Law has extensive experience regarding the variety of legal problems the clients working in this sector may face.

Our group of professionals specialized in the Health and Pharmaceutical Law offer legal services in the following matters:

- Licence and distribution agreements.
- Authorizations, pricing issues, and approvals of reimbursements.
- Medical research and clinical tests.
- Pharmaceutical control.
- Parallel drug trade.
- Competition issues.
- Public tenders.

Due to the special characteristics of the marketing and advertisement of pharmaceutical products, we have created a practice area specialized in these issues [PUBLI-FARMA].
